

## STAY HOMAS. THE BAND THAT SHOULDN'T EXIST

STAY HOMAS. LA BANDA QUE NO HAURIA D'EXISTIR

BY ORIOL GISPERT, NICK BOLGER, RAMON BALAGUÉ

In the midst of the pandemic, three musician friends - Rai, Guillem and Klaus - are confined to a flat in Barcelona. They fight boredom by writing a song every day and posting it on Instagram. Other artists are invited to collaborate: Macaco, Manu Chao, Sílvia Pérez Cruz, Sofia Ellar, Pablo Alborán... Michael Bublé asks them for a song. Then they become a worldwide phenomenon. We propose a journey where we will see the birth of Stay Homas on their terrace and, with exclusive and intimate access, we will accompany them for three years, to see if they manage to establish themselves as a band and leave behind the label of "pandemic group". If they succeed or remain a one-hit wonder.
