

THE HUMAN HIBERNATION

LA HIBERNACIÓ HUMANA

BY ANNA CORNUDELLA

The Human Hibernation shows the daily life of a community that hibernates during the three coldest months of the year. The death of a child during hibernation and the suspicions around it will generate accusations among the families in the community. As this unfolds, we will go through all the phases of its cycle, closely tied to nature and the other animal species. How they gain weight to hibernate, how they protect themselves, the awakening, the reproduction of the species, as well as the traditions, beliefs, taboos and legends of a proto-society with which we quickly find affinities. A reflection on man and his animal condition.
