

THE BUS OF LIFE

EL BUS DE LA VIDA

BY IBON CORMENZANA

Andrés (Dani Rovira), a music teacher who works in Madrid, has to move to a village in the north of Spain to work as a substitute teacher in a high school. Already in his 40s and never having overcome stage fright, he feels that his new life is taking him away from the dream of being a musician. To top it all, when he arrives, on his first day at school, he faints because of a loud ringing in his ear: it's cancer. To receive treatment, he must travel to the hospital in Bilbao on "THE BUS OF LIFE", an old coach that transports all the cancer patients in the area, free of charge. Thanks to laughter, confessions, experiences and fears shared with his fellow passengers, Andrés will gain the strength to finally face his fears and fulfill his dream.
