

VALLEY OF SHADOWS

VALL D'OMBRES

BY SALVADOR CALVO

The Himalayas, 1999. Quique, Clara, and little Lucas are enjoying their first vacation together in northern India. One night, sleeping outdoors during a storm, they endure a brutal attack by bandits. Hours later, Quique is rescued by a local and taken to a remote, isolated village in the mountains. There, cut off from communication and with no possibility of returning to civilization, he will remain until the arrival of winter, which will enable the formation of the only way out of the village: the frozen river. The journey back, full of dangers and accompanied by various children from the village, will test everything Quique has learned during his time in the heart of the Himalayas.
